6 v 2

3 v 7

8 v 4

or

5 v 1

2 v 6

7 v 3

4 v 8

white if huso wins white will be on 1nd 3 board's black on 2and 4 board's I have also decided to use colors to decide pairings if possible otherwise normal Swiss rules will apply the main rules are players with equal scores will play each other in each round if there is an odd number of scores the highest rated player from a lower scorer will be paired up nobody will get more than 3 whites or 3 blacks any questions I will try and answer this Thursday anybody who is unable to play must make sure they play one week before the next round otherwise they will default the game and score 0 and I must be informed asap of any disputes

Because there are only 5 games there will be a draw between me and Huso to decide who gets white
